Why Summer is the Best Season!

Have you ever sat inside on a cold snowy day counting down the days until summer? If so you are like me and love summer. There are many reasons why I like summer and think summer is the best season.

Summer is the hottest season of the year because depending on where you live the temperature averages 70-80 degrees Fahrenheit. There are many things you can only do in the summer because it is so warm.

Summer is a great time to play outside since it is warm outside! You can go swimming, play at the park, or go to the beach. In the summer people get more exercise because they can get outside and be active.

Although you have to be careful in the sun and wear sunblock there are health benefits. The sun gives us vitamin D. Vitamin D helps your bones and boosts your energy!

There are benefits to all of the seasons but you can clearly see why I think summer is the best! If you like other seasons better you should play outside in summer and think of all the great things about it.
