Jose and the Sailboat

Jose has a small sailboat with a white sail. He lives on a lake and likes to sail often. Many times he sees fish and other animals. Sometimes Jose's brother goes with him in the boat.

One day they sailed to the far side of the lake. There they saw a large alligator sleeping in the sun. The alligator awoke and began to swim to the boat. The wind did not blow and the boat would not move.

The boys started to worry and get scared. Soon they saw their dad come across the lake. He was in a speedboat and scared the alligator away. The boys never went to that part of the lake again.
